🗖 Composition শেখার সহজ Tips :

- প্রথমেই শিরোনাম বা Title লিখতে হবে।
- Composition এর সম্ভাব্য Word সংখ্যা হবে 250।
- Composition এর মূলত ৩টি অংশ থাকে : Introduction, body এবং conclusion।
- যে বিষয়ের উপর Composition লেখা হয় তার মূলভাব সংবিশ্তভাবে Introduction অংশে লিখতে হবে।
- বিষয়বস্তুর বিস্তারিত বর্ণনা ধারাবাহিকভাবে প্যারা আকারে body অংশে উপস্থাপন করতে হবে।
- Conclusion অংশে সম্পূর্ণ বিষয়বস্তুর উপর সমাপ্তিসূচক বক্তব্য লিখতে হবে।

Science in Everyday Life/The Wonders of Modern Science/The Triumph of Science/ The Blessings of Science

We live in an **age** (যুগ) of science. We cannot think of our modern life without the **blessing** (আশীবাদ) of science. Science has given us many things. The **inventions** (আবিস্কার) of science have made our life easy and comfortable. It has brought the world smaller. Computer, mobile etc. are the recent inventions of science. With the help of these, we can communicate with others within a moment. We see the blessings of science in the field of medical, **recreation** (বিনোদন), education, agriculture, transport, construction, industry etc.

In city life, we enjoy mostly the gifts of science. We use computer that can do almost everything. We **cannot do** (চলতে পারিনা) a single day without using mobile, computer, internet, telephone etc. The blessing of science **lights up** (আলোকিত করে) streets and houses. Cinema shows, radio, televisions, electronic fans all are gifts of science. Scientific machines and medicines **purify** (পরিশুন্ধ করে) water. Mills and factories are run with the help of electricity.

Medical science has **lessened** (কমিয়েছে) human **sufferings** (ভোগান্তি) and it has increased the joys of life. Penicillin, x-ray, biopsy, ultra sonogram, E.C.G. etc. are the wonders of modern science. **Complicated** (জটিল) medical treatment is also provided by the doctors who use scientific **measures** (মাপ) in every step of their work.

In the field of education, science **has widened** প্ৰেক্ষা করেছে) our horizon of knowledge. We can read printed books with the help of science. Students and teachers can easily get their necessary information's on the in internet.

In the field of agriculture, science has invented tractors, power tillers, power pumps etc. Besides, the use of scientific measures has increased the quantity of crops. All these inventions have benefited (লাভবান করেছে) us.

Science has added a new **dimension** (মাত্ৰা) in the case of communication system. It has invented aeroplanes, buses, trains, steamers, rockets, launches etc. All these inventions have removed the distance of place. Thus, science has saved our valuable time. We can now travel hundreds of miles within a short time.

However, science is not **mere** (নিছক) blessing. Sometimes it becomes a curse. It becomes curse during war. Some **destructive weapons** (ধ্বংসাত্ত্বক অসত্ৰ) are used in killing people. People also use the inventions of science in different kinds of evil (অসৎ) purposes.

The inventions of science are no doubt blessing for us. It has done a lot for the development of human civilization. We are mostly (অনেকাপুনা) dependent on the inventions of modern science in our everyday life.

Newspapers/The role of newspaper in Modern life/Importance of Reading Newspaper/ Importance of Newspaper

A newspaper is a paper that gives us news of day to day (দৈনন্দিন) happenings (ঘটনা) of the different parts of the world. It is one of the blessings of the modern civilization. We cannot think of modern life without the newspaper. The first newspaper was published in China. Venice of Italy was the first place where the first newspaper saw the light of the day (দিনের আলো) in Europe. During the reign (শাসনামলো) of Elizabeth it was published in England. The "Indian Gazette" published in 1774 was the first newspaper in the sub-continent (উপমহাদেশ). "The Samachar Darpan" brought out by the Missionaries of Sree Rampur was the first Bengali newspaper.

There are various kinds of newspapers in the world. They are dailies, weeklies, monthlies, fortnightlies (যানাসিক), and so on. The daily newspaper carries the news of the daily affairs. It is popular with all sections of people. Other kinds of newspapers are known as **periodicals** (সাময়িকী) and magazines. They contain articles, stories, literatures, poems and some other items.

Newspaper is very useful to all sections of people. It tells us what is happening at **home and abroad** (দেশ-বিদেশের). It is said that, newspaper is a store house of knowledge. It **familiarizes** (পরিচিত করায়) the students with the world outside. **Merchants** (বিপিক) read the newspaper to know the condition of the market, Lovers of sports **go through** (পড়ে) them to get the sports news, and Politicians come to know the political news of the world. The **employment seekers** (চাকুরী প্রাথীরা) get useful information in it. It is for all these reasons newspapers are a great concern to all.

Newspaper leads (পরিচালিত করে) the people and nation in right way. But this is often **ignored** (উপেৰিত). As the newspapers are owned by different political parties, they provide news and **express views** (মতামত প্রকাশ করে) in their **own way** (নিজন্স পন্দ্রতিতে). Really speaking, newspapers sometimes **suppress** (দমন করে) the truth and spread (ছড়ায়) lies. Hence newspaper is not always an **unmixed blessing** (অবিমিশ্রিত আশীর্বাদ). Napoleon said, "Four **hostile** (শত্রব ভাবাপন্ন) newspapers are more to be feared than a thousand bayonets".

In spite of its **draw-backs** (অপকারিতা) newspaper is the most useful thing in modern life. We cannot think of a day without it. If we do not read it, we shall be like the **frogs** (ব্যাঙ্জ) in a **dark well** (অম্পকার কুরোয়). It is a looking glass of the modern world. So, all of us should read it regularly.

Television/Uses and Abuses of Television

Television is one of the greatest **discoveries** (আবিষ্কার) of modern science. John Bayard **invented** (উদ্ভাবন করেছেন) the television in 1925. The word 'television' has come from the latine word 'tele' and greek word 'vision'. Tele means **distance** (দূরত্ব) or far and vision means sight. Therefore television means 'far sight' (দুরদর্শন).

Television is one of the most modern **means** (মাধ্যম) of communication **ideas and thoughts** (চিন্তা-ধারা). We hear the speeches of the world famous personalities. It serves much more than a radio. It is like a stage where **performers** (কুশীলব) are seen and heard. It gives us news on national and international matters.

Television is a source of recreation. After day's hard work, we sit before a television set and hear music and songs. We enjoy drama, dance and many other things.

Television has a great educative value. It teaches the illiterate and students. We hear and enjoy debates, **lectures** (বকুতা) on various important topics, discussion on science and speeches through television. It has broken the wall between the literate and illiterate.

Now a days, people need not go to stadium to enjoy a game. They sit before television and enjoy football, cricket and other games and sports.

Television has made the world small. It **has conquered** (জয় করেছে) time and distance. People need not spend **huge money** (বিপুল অর্থ) to go abroad. We get familiar with the customs and traditions, fashions and dresses and culture of the people of different part of the world through television.

Television has some **demerits too** (অপকারিতাও). Young people most often watch the **exciting** (উত্তেজনাকর) films on **violence** (সংঘাত) and **crime** (অপরাধ). They also see the **obscene** (অশরীল) films and **naked** (নগুন্ত্য) dances. All these things **leave** (ফেলে) a **damaging effect** (ৰতিকর প্রভাব) on their mind.

In spite of its draw-backs, television is an important medium of mass communication. It plays an important role in our daily life.

Uses & Abuses of Satellite TV

Television channel broadcast (পরিচালিত) by using satellite is called satellite channel. Now-a-days (আজকাল) satellite channel is a very familiar name to us. It has added (যোগ করেছে) a new dimension in television telecasting (প্রচারনায়). In fact, it has brought about a great change in the world of entertainment, education, and information. There are thousands of satellite channels around the world. A wide range (বিশাল বৈচিত্র্যময়) of programmes of varied interests are telecast on these channels. These programmes are not only entertaining but also highly informative and educative. There are some channels which help us to gather knowledge from every hook and corner of the world. These channels help us to broaden our **outlook** (দৃষ্টিভঞ্জি) and break down **prejudices** (কুসংস্কার). But there is no unmixed blessing on earth. So, satellite channels have some demerits too. Some channels telecast obscene, vulgar, and indecent (কুৎসিৎ) programmes which develop (বাড়িয়ে দেয়) domestic discord (পারিবারিক বিবাদ) and adultery and accelerate (ত্বরান্বিত করে) social and moral degradation (নৈতিক অবৰয়). These indecent programmes leave a bad influence on the soft minds (কমল মনে) of our young generation. Watching these violent and indecent programmes, our young generation is **drifting away** (পূরে সরে থাচছ) from our own culture, tradition, music, entertainment and modes of life. Their taste and modes of life are being influenced (প্রভাবিত) greatly by some satellite channels and they are becoming **uncontrolled** (নিয়ন্ত্রণহীন) gradually. Some channels are causing cultural decay and moral degeneration. So, we should be more cautious to allow children to watch such programmes that may hamper (ৰতি করে) their career. We should allow telecasting only the selected programmes which highlight our traditional and social values. For this purpose a government policy should be enforced (কার্যকর করা) to permit the programmes which are decent and beneficial. The channels which are causing cultural decay should be strictly prohibited (কঠোরভাবে নিষিদ্ধ). We should remember the proverb that from the same flower bees gather honey and spiders gather poison.

The Uses of Computer in Daily Life

Computer is one of the most **brilliant** (অসাধারণ) gifts of science. It is **constantly** (প্রতিনিয়ত) being updated to make our lives better. In fact it is a wonderful electronic brain that we have come **to rely** (নির্ভর করা) on in our everyday life. This **device** (যুক্ত্র) was originally developed by Charles Babbage.

Computer has been **proved** (প্রমাণিত) a friend and servant of science, technology and industry. Most offices, shops, factories and industries use computers. The internet on a computer is a storehouse of information. Computer is a **boon** (সৌভাগ্য) to all. It has made the world a **global village** (বৈশ্বিক গ্রাম) today.

Computer has influenced every field of activity. It helps us in solving many difficult problems of **multiple** (বহু) calculations. Computer has a huge memory. It **can hold** (ধারণ করতে পারে) large amount of data.

It has **reduced** (কমিয়েছে) the paperwork. The **traffic** (যানবাহন) in large cities is controlled by computers. Automation in banks and railway stations has **provided relief** (স্বিচ্চ দিয়েছে) to the public. Ticketing and **reservation** (স্থেৰণ) have become more **efficient** (সুদৰ) and **convenient** (সুবিধাজনক). It is used to **investigate** (প্রীবা–নিরীবা) disease accurately. **Business transactions** (ব্যাবসায়িক **লেন**দেন) are easily managed by using computers.

Computer is the **backbone** (মেরবদন্ড) of **information technology** (তথ্য–প্রযুক্তি). One can also **apply** (আবেদন করা) for a job or **admission** (ভর্তি) in a college by filling the application form online. Computer helps to save our **time and energy** (সময় ও শক্তি). One can also see results of any examination on the internet.

Computer has also some **disadvantages** (জসুবিধা). Many students waste their time playing computer games. The **rises** (উথান) of cyber crime, the use of chat rooms for indecent discussion and certain websites which deal in pornographic material have been noticed.

But the advantages and importance **outweigh** (ছাড়িয়ে গেছে) the disadvantages. Through computerization, the world has become a global village today.

Student Life/The Duties of a Student

There are different stages (বিভিন্ন পর্যায়) of human life. Student life is one of them. This time is spent for (ব্যয় হয়) earning knowledge (জ্ঞানার্জনে) and education. In this period, students prepare themselves for future stages of life. So, student life is called the seed time (বীজ বপনের সময়) of future life. Besides study, students have some extra-curricular and social activities.

The first and **foremost** (প্রধান) duty of students is to study. Leaving study, students should not **engage** (নিযুক্ত হওয়া) in other activities. At first, they must complete their class syllabus. Extra class work in everyday routine should be done regularly. For this, they have to be **punctual** (সময়নিষ্ঠ), **well-disciplined** (শু–শৃঙ্গেলিত) and devoted to study. Next, they can read other books like novel, poetry, essay, short story and newspapers for **extra knowledge** (বাড়তি জ্ঞান).

Proper use of time is **essential** (অত্যাবশ্যক) for students. If they waste time, they will not be able to **reach** (শৌছানো) their goal. They must know that success depends on the proper use of time. They should **realize** (বোঝা) that lost time can never **be regained** (ফিরে পাওয়া). Even, they should spend their **leisure** (অবসর) time in a **fruitful** (ফলপ্রসু) way.

After keeping their study well, students may **indulge** (নিয়োজিত হওয়া) in other extra-curricular and social activities. They should **participate** (অংশগ্ৰহণ করা) in games and sports. Physical exercise is necessary for them. Without a good health, their education might be a failure. They should **come forward** (এগিয়ে আসা) to help the affected people during flood, cyclone, etc. They also can **literate** (শিবিত করা) the illiterate people.

Students should have their **aims** (উদ্দেশ্য). They will be the leaders of their nation in future and **run** (চালাবে) their country. So, they should prepare themselves well so that their nation can be **benefited** (উপকৃত) by them.

Physical Exercise

Physical exercise means the regular movement of the limbs of our body for blood circulation and activeness of body and mind. To keep our body and mind fit, physical exercise is **obviously required** (অবশ্যই দরকার). A tool made of iron is spoilt by **rust** (ধুলো) if we do not use it for a long time. In the similar way, a body without necessary movement becomes weak. Diseases can easily attack an **idle** (অলস) man. Indeed, it is natural that life is not **static** (খিৰা) rather **dynamic** (গতিশীল).

There are many kinds of physical exercise. Walking, swimming, running etc. are good forms of exercise. Walking is suitable (উপযুক্ত) for the men of all ages but swimming is appropriate for tender-age (অল্ল-ব্যাস). All games and sports are good physical exercises. Football, Cricket, Ha-du-du, Kanamachi are some games which are really good as physical exercise. Gymnastics are also great exercise but not suitable for all. Meditation is also a kind of exercise.

Healthy people are **required** (দরকার) for the development of a country. A **jolly** (খুনি) mind takes **shelter** (আশ্রয়) in healthy body. And to keep good health physical exercise is essential. So, directly or indirectly physical exercise helps develop a **resourceful** (সম্পদশালী) nation. Health is not a gift of chance. We have to **acquire** (অর্জন) it. Here **lies** (নিহিত) the importance of physical exercise.

We have to follow the rules of exercise. Punctuality and regularity are the **prerequisite** (পূর্বশর্ত) of physical exercise. Irregular exercise or **over** (অতিরিক্ত) exercise may have **negative impacts** (নেতিবাচক প্রতাব) on health. We should be careful about taking food. Without balanced diet, physical exercise may not work. It is **unwise** (বোকামি) to take exercise with an **empty stomach** (খালি পেটে). So we, all should take physical exercise to enjoy a sound health.

Value of Time

The value of time is **limitless** (অসীম) and it cannot be measured. Human life is short but he has to do a lot of work within the short span of time (সময়ের ক্ষুদ্র পরিসরে). There is no **alternative** (বিকল্প) to make our life successful without the proper use of time.

There is a proverb —"Time and Tide wait for none". Lost money, wealth or health may be regained. But lost time can never be found again. If any work is not finished in time it may not be finished at all. As time is fleeting (দ্ৰবত ফুরিয়ে থাচ্ছে), every work must be done in time.

We should make a **proper division** (সঠিক বিভাজন) of our time and do our duties properly. **Only then** (কেবল তখনি) we will be able to be successful in every stage of our life. No great work can be done without a strong sense of time. History teaches us that all the great persons led their lives to top of success making the best use of time.

Misuse (অপব্যাবহার) of time is a great crime. It makes a man's life **barren** (খালি) like a **desert** (মরবভূমি) and also gossiping, speaking, **ill of others** (প্রনিশ্দা), useless work and watching **vulgar** (অশ্রীল) films. Many of us say that they have no time for doing everything in this short time. Thus, many **cheat** (ধোকা দেয়) themselves and they can do nothing but **repent** (অনুভাপ) in the long run.

The children should learn the value of time from their childhood. This **sense** (বোধ) will make them punctual. The punctual can read, write, work, pray, play, tour and do other thing timely and properly. In fact, they not only do their duties properly but also enjoy themselves **sufficiently** (যথাপ্তাবে). Because they never put off any work for tomorrow.

God has sent us to this beautiful earth as the best creation to do all kinds of good deeds. And anything good can be achieved only through making the best use of time. So, we should spend every moment in useful works. Only then we will be able to make our life valuable, **glorious** (গৌরবময়) and to reach our goal.

Discipline

Discipline means **obedience** (আনুগতা) to certain rules and regulations which are essential for the **maintenance** (রৰণাবেৰণ) of law, order, justice and punishment. Man lives in a society. He is to live with others and obey discipline for maintaining peace in the society.

Everything within the **universe** (বিশ্ব) **is conducted** (পরিচালিত) by discipline. **Breach** (ভঙ্গ) of discipline brings **downfall** (পতন). If every man does as he likes, there will be **chaos** (বিশৃঙ্খলা) in the society. So, the importance of discipline is very great. We should follow discipline to be successful in the **battle of life** (জীবন–মুন্দ).

Discipline is very essential in the army. Everyone in the army has to **lead** (পরিচালনা) a disciplined life. A small group of military is more **capable** (সৰম) to win a battle than a large group of military which suffers from **lack** (অভাব) of discipline.

Discipline is necessary in student life. By learning discipline, a student can be a successful citizen in future. The student who learn discipline from their early life can **tackle** (সমাধান করা) any problem in his future life.

The institution that follows discipline runs well. But it fails when it is without discipline. A good institution follows rules and regulations **strictly** (কঠোৱভাবে).

The planets (নৰত্ৰৱাজি) move in discipline. As a result, there is no possibility of clash (সংঘৰ্ষ) and conflict (ত্ব্ব) among them. Thus discipline can be learnt from the disciplined (শুঙ্গালিত) movement of the planets.

Discipline brings success for one who follows it. The great men of the world followed discipline strictly. They never did anything against rules and regulations. We should follow their **life style** (জীবন পাৰ্মতি) to be successful in life.

Discipline is development. Discipline **draws** (টানে) a **sharp line** (তীক্ষ রেখা) of distinction between men and **beasts** (পশু). So, we should be careful of the importance of discipline in our life.

Drug Abuse

Drug addiction means **strong attraction** (তীব্ৰ আকৰ্ষণ) for drugs. It is a global problem. At present it has become a **burning question** (অত্যন্ত প্ৰয়োজনীয় প্ৰশ্ন) in our country. It is found in rural and **urban** (শহুরে) areas.

Frustration (হতাশা) is the main cause of drug addiction. Failure in love, **unemployment** (বেকারত্ব), political **unrest** (অস্থিরতা), social unrest, family conflict, lack of family **ties** (বেশ্বন), lack of love and affection etc. are **greatly responsible** (প্রধানত দায়ী) for it.

Mainly the young boys and girls are the victims of drug addiction. Drug addiction has harmful effect on the mind and body of the addicts. Drug kills human beings slowly but surely. It **destroys** (氧邻 季岛) physically, mentally and morally. It gradually leads men to death.

Drug addiction causes cancer, heart disease, and other respiratory diseases. It damages the nerve system of the body and brain. So, the addicts cannot lead a normal life. They lose **appetite** (零句) for food and cannot sleep.

To manage the money, the addicts **commit** (করে) social crimes like **stealing** (চুরি), hijacking, looting, killing, robbery, etc. It is high time to take proper steps to control drug addiction. The causes of frustration should be removed. According to the law, drug business is a **punishable offence** (শাস্তিযোগ্য অপরাধ). The highest punishment is death. Now the law must be enforced strictly.

The young boys and girls should be made aware of the evils of drugs. **Public awareness** (জনসচেতনতা) should be raised against this addiction. Mass media can play an important role in this regard. The parents should take proper care of their children. Children must be treated with love and affection. Moral teaching should be given to them. The government as well as the **conscious** (সচেতনতা) people should work together to **get rid of** (মৃত্তি) this curse of drug addiction. **Otherwise** (অন্যথায়), as a nation we will fall into a great danger.

Population Problem in Bangladesh/Population Explosion in Bangladesh

Bangladesh has so many problems and **crises** (সজ্জট). Population problem is one of the most serious problems among them. It hampers the development of our country.

Undoubtedly (নিঃসন্দেহে) Bangladesh is a **densely** (ঘণ) populated small country. Her area is about 55,598 square miles. In this small area, she **contains** (ধারণ করে) more than 160 million people. The **rate** (হার) of density is about 2,698 per square miles which is absolutely **surprising** (আক্র্যজনক) and every day the rate is increasing. So, It becomes very difficult for Bangladesh to provide her citizens food, clothing, housing, communication, medical service, employment, education and all other **fundamental demands** (মৌলিক চাহিদা).

Bangladesh mostly depends on agriculture for her economy. She has very few **mineral** (খনিজ) products. She is not **self-sufficient** (আঅ—নির্ভরশীল) in food. She is not industrially developed. So, she is not able to export her industrial or agricultural products. Besides she is to face natural **calamities** (দুর্বোগ) every now and then. So, Bangladesh is to **import** (আমদানি) many necessary things every year. Increasing population keeps **so much pressure** (অত্যধিক চাপ) on the economic development of Bangladesh.

Over population is creating so many problems. Poverty, hunger, **malnutrition** (অপুন্টি), diseases, **restlessness** (অস্থিরতা), disorder, illiteracy, **backwardness** (পশ্চাৎপানতা), unemployment, frustrations are on the increase for over population. In brief, over population has become a national problem of Bangladesh. So, it is high time we took necessary steps for population control.

To control population, we have to go to our villages at first. About eighty percent people live in villages. Most of them are illiterate. They do not **realize** (বোঝা) the importance of **family planning** (পরিবার পরিকল্পনা). They do not know how to **control** (নিয়ম্প্রণ) population. Religious misinterpretations interrupt them to adopt family planning. So, we have to raise consciousness among the village people.

Recently, Bangladesh Government has taken some necessary steps to control population. Besides, different electronic media are presenting **cautionary** (সতৰ্কতামূলক) programmes **regarding** (বিষয়ে) the solution of the population problem of Bangladesh. We can hope that we will be successful in population control in near future.

A Journey by Train/A Journey You Have Recently Enjoyed/My Experience of a Journey by Train

A journey by train is always **fascinating** (রোমাঞ্চকর) and interesting to almost everyone. It charms mind and makes us happy. During the last winter vacation, I got an opportunity to make a journey by train with my family members from Dhaka to Rajshahi.

My uncle lives in Rajshahi and he invited us to **attend** (যোগান) the marriage ceremony of his elder daughter at his house. After discussion, my father decided to go there by train. It was 11 December, 2015. We got up early in the morning, took preparation and reached Kamlapur Railway Station by bus. My father bought four tickets for the Ekota Express.

We got into the train and took our seats. Within a few minutes, the train started to move slowly at about 7.30 am and **gradually attained** (লাভ করে) speed. I **noticed** (লাভ করে) the passengers reading newspapers and heard them talking on different topics. As I had my seat by the window, I could see outside easily. I was enjoying the beautiful sights and sounds of nature. I saw jute, **sugarcane** (ইক্), and paddy fields, beautiful houses and trees. All these seemed to be **running back** (পেছনে নৌড়াচ্ছে). The village women were seen carrying **pitchers** (কাস্মা) of water, farmers were seen working in the fields and young boys, girls and children **were shivering** (কাঁপছে) in cold. I was enjoying everything to my **heart's content** (ড়ন্ডি সহকারে).

As it was an intercity train, it did not stop in many stations and was not very crowded. There were a few hawkers in the train selling boiled eggs, chanachur and betel leaf. In this way we passed ten hours and at last reached Rajshahi Railway Station at 5 pm. My uncle was waiting for us. After coming out of the station, we were greeted cordially. Thus the train journey came to an end. The journey was a short one but it gave me much pleasure and experience. It was the most pleasant (আনশ্যাক) journey in my life, and its memory will remain ever fresh in my mind.

A Journey by Boat

A journey is a **source** (উৎস) of pleasure to me. A journey by boat is more interesting to me than any other journey. Bangladesh is a land of rivers. So, it is easy to enjoy a journey by boat here.

During the last **autumn** (শরৎকাল) our school was closed. It was a suitable time for me to have a journey. That time my friend invited me. It was much easier to reach my friend's house by boat. So, I decided to make the journey by boat. I proposed some of my cousin to join me to make the journey more interesting. Two of my cousin accepted my **proposal** (প্রকাব) and **accompanied** (সাজা দিয়েছিলো) me.

It was a five-kilometre journey. We had hired (ভাড়া নিয়েছিলাম) a boat. We started at 3 pm. Two boatmen (মাঝি) steered (চালালেন) the boat smoothly (নির্বিষ্ণ্ল). They were very expert (দৰ). The weather was calm (শান্ত) and quiet. Gentle breeze (মৃদু বাতাস) was pushing the soil. So the journey was very nice. It took one hour to reach our destination (গন্তব্য). During the journey we had a lot of enjoyment. The boat was dancing (দুলতেছিলো) on the small waves and it thrilled (শিহরিত করেছিলো) me much. We also enjoyed a 'Bhatiali' song sung by the boatmen. We were delighted at the sight on both the banks of the river. Some fishermen were catching fish. Many children were bathing (গোসল করছিলো) and swimming in the river. I saw some young girls and women taking water from the river. When the sun was setting in the western horizon (পশ্চিম দিগন্ত), the scene gave us a nice view and it increased (বাড়িয়ে দিয়েছিলো) our joy.

It was really a nice journey and I will ever remember this journey. I wish I could make a journey like this in the following year.

A Journey by Bus

It was the month of December. My annual examination was over. My parents **decided** (সিন্ধান্ত নিলো) to go to my uncle's house at Jamalpur by bus. **Hearing** (শুনে) the news my heart **danced** (নেচে উঠলো) with joy. It was 25th December 2015.We got into the bus at Mohakhali Bus Terminal **on due time** (যথায়থ সময়ে).

It was winter. The bus started at 6 am. I sat beside a window looking outside through it. The sun was rising with all its **splendid** (চমৎকার) beauty. Within an hour **of leaving** (ছাড়ার) the urban areas, our bus began running at a high speed along the road with green fields on both sides. I gazed at the houses, trees and **meadows** (চারণভূমি) through the window with a cheerful mind. Things came to my vision and vanished in the twinkling of an eye. Everything on either side seemed running swiftly to the opposite direction.

When the bus was running through the forest of Modhupur Ghar, the tall trees with green leaves **overhead** (মাথার উপড়ে) gave a nice view. I was really charmed at the green panoramic beauties of Nature. It filled my heart with great joy. The bus ran **at a stretch** (একটানা) without stopping for three hours. It then stopped at a place for a short-break. There was a resturant by the roadside. We got down from the bus and had **light** (হালকা) refreshment there.

After a few minutes the bus began its journey again crossing the green fields on both the sides of the road. This time we saw **bare-bodied youngsters** খোলি গায়ের যুবকদের) **tending** (চড়াচ্ছে) cattle and grown up people working in the field. Occasionally we saw village women and girls bathing and washing clothes in the ponds. At about 12 noon, we reached Jamalpur. Thus our journey came to an end.

The journey by bus was really a pleasant one. I can **hardly** (কদাচিৎ) forget the sweet memory of this journey. The scene of the journey **peeps** (উকি দেয়) into my mind when I become tired of the monotonus urban life.

Hobbies are the **activities** (কাৰ্যক্রম) that we do for pleasure at our leisure. More or less everybody has some hobbies like swimming, gardening, fishing, stamp collecting, travelling, reading books, etc. I am a student of class eight. I like to spend my leisure time by reading novels, collecting stamps, gardening etc. Among them my favourite hobby is gardening.

As a student I have to work hard for study. So, I need rest and **diversion** (বৈচিত্ৰ্য). Gardening **provides** (সেয়) all these. It makes my leisure time fruitful and enjoyable. I have a garden in front of my reading room. Every afternoon, I work in my garden. I make the soil **loose** (টিলা করা) with the spade. I **weed out** (নিরানি দেই) the grass and **plant** (রোপন করি) flower plants. I have made a **fence** (বেড়া) around my garden. Every morning when I go to my garden, my joys know no bounds. A good number of flowers **bloom** (কোটে). They charm me much. I like all the flowers but I love the rose most.

The importance of hobby **is not less** (কম নয়). It refreshes my mind. It makes me forget the troubles and worries (দুশ্চিম্ত) of my life. The great persons of the world had their favourite hobbies too. Whenever they became tired for hard work, they returned to their **respective** (নিজম্ব) hobbies. For example, Einstein **played on** (বাজাতেন) his violin and Byron took pleasure in fishing. Napoleon loved to play with children and read the dramas of Shakespeare.

Gardening is an exercise. Working in the garden makes me fit and healthy. The garden provides me with fresh air and smell. It refreshes my mind. My garden is not only a source of joy but also a source of income. Sometimes, I sell flowers from my garden and earn my pocket money. I think every student must have a hobby like this.

My Favourite Game/My Favourite Sport /The Game I like Most

Every sports lover has their favourite games. I like many games like ha-du-du, football, cricket, volleyball, etc. But the game which I like most is football. Football is an international game and it is played all over the world. It was first played in England. It was the most popular game in Bangladesh for long years. At **present** (বৰ্তমানে) cricket has the best popularity but Football is **still** (এখনো) a popular game here. No game is as **exciting** (উত্তেজনাকর) to me as football.

The **rules** (নিয়ম) of playing football are easy. Football is played between two teams. Each team **consists** (গঠিত) of eleven players. Some **extra** (অতিরিক্ত) players **are kept** (রাখা হয়) ready for **change** (বদলি) when necessary. Each team has a goal-keeper. The result of the game depends on goals. A referee conducts the game. Two linesmen help the referee. The **duration** (সময়/ব্যাপিত) of the game is 90 minute. There is an **interval** (বিরতি) after 45 minutes. The players change their **sides** (অবস্থান) at the end of the first half.

Football is **undoubtedly** (নিঃসন্দেহে) a popular game over the world. The **spectators** (দৰ্শক) of football cross those of any games. Pele, Maradona, Ronaldo, Messi, Neymar have won the heart of the people of the world. They have become the living **legends** (কিংবদন্তী) of the world. Many events of football are held over the world in every year but the FIFA world cup is the best of all. It is held in different countries every four years.

Playing football is a good exercise and it is very good for health. It teaches obedience to rules and **leadership** (নেতৃত্ব). It **develops** (বাড়ায়) team spirit, fellow feelings and co-operation among the players. It grows the **spirit** (তেজ) of leadership too. These are really very necessary for us.

Football is not always **free** (মুক্ত) from **negative** (নেতিবাচক) sides. Too much **involvement** (সংশিরউতা) of the students in the games may **affect** (ৰতিগ্ৰহ্ম করা) their studies. Sometimes, supporters (সমৰ্থক) are seen to get involved in **clashes** (সংঘৰ্ষ). Moreover, players may be **injured** (ভাহত) seriously and become **disabled** (ভাৰম).

Football is the most favourite game to me because it is full of thrills and excitements. It thrills not only the players but also the spectators. I am not only a spectator of football but also a football player. I think football playing should be developed in our country.

My Aim in Life/My Future plan of life

Many people have no **definite** (নিৰ্দৰ্থ) aim in life. They are like ships without **rudders** (বৈঠা) and without goals. So, a man who **wishes** (চায়) to succeed in life must have a definite aim in his life. My aim in life is to become a doctor.

I like the **profession** (পেশা) because it is a **noble** (মহৎ) profession. The idea came to my head during a **vacation** (ছুটি) when I was holidaying at my village home. There before my eyes, I saw the only son of a poor farmer died of a high fever without any medical help. At that night, I realized that only a physician can help one in such a **dire** (জরবরী) moment of one's life.

But I have chosen (বেছে নিয়েছি) it as my aim in life for some other reasons. More than eighty percent of the people of our country live in villages and they suffer from various diseases for **ignorance** (অপ্ৰতা), poverty, **malnutrition** (অপুন্টি) and **want** (অভাব) of proper sanitation. But the hospitals and the doctors are very few in rural areas. Most of the doctors **hanker after** (লালায়িত) money and honour and they **prefer** (পছন্দ করে) cities and towns to villages as their fields of practice. As a result, many people of the villages die like cats and dogs without proper treatment and medicine. Seeing all these, I have taken decision to become a doctor in my future life.

Now I am preparing myself for this. From class 1X, I have been studying in science group having Biology. I am trying hard to **improve** (উন্নতি) my result so that I can get admitted into a good medical college. I know that becoming a doctor is not an easy **task** (কাজ). It is hard and also **costly** (ব্যয়বহুল). My parents also know my aim in life and they always **encourage** (উৎসাহ দেয়) me to **achieve** (অর্জন) my goal. I am **determined** (দৃঢ়প্রতিজ্ঞ) to try my best to achieve my goal in life.

However, after becoming a doctor, I will practice in the villages. I will treat the poor people without any fees. Besides, I will try to make the people conscious about health and sanitation. My best effort would be to serve the suffering humanity. I believe in "To serve (সেবা করা) man is to serve God".

My Favourite Teacher/The Person I like Most

I have been taught (শেখানো হয়েছে) by many good teachers during my student life. I like most of them. But M A Basar is my favourite teacher. I like him most for a number of reasons. He teaches us English.

Mr Basar is a graduate from Dhaka University. He is really a **proficient** (পৰ) and **devoted** (একনিষ্ঠ/নিবেদিত প্ৰাণ) teacher in English.

His teaching **capacity** (দৰজা) is very interesting and attractive. I never feel **bored** (বিরক্ত) in his class. Sometimes, he makes fun with us while teaching. He does this to make our lessons more interesting and **hold** (আকর্ষণ করতে) our attention. He often teaches us English through question-answer and communicative methods. He always keeps us active in our class. He makes any **difficult** (কঠিন) lesson easy to us. We can learn all the no doubt, he is a very good English teacher.

Mr Basar is a man of some noble qualities. He is not only a teacher but also a friend and **guide** (দিক নির্দেশক) to us. He **finds** (পান) great delight in working with us. He is very **affectionate** (স্নেহপরায়ন) to us. He is always ready to help us in all possible ways both in our classroom and outside it. He encourages us to learn more and become the **worthy** (যোগ্য) citizens of the country. He also encourages us to take part in **co-curricular** (সহ-শিৰা) activities.

Moreover, he is a man of **high personality** (উচ্চ ব্যক্তিত্ব), **principle** (নীতি) and character. He **praises** (প্রসংশা করেন) us if we do good things. But if we are **negligent** (অমনোযোগী) and if we **misbehave** (বাজে আচরন করি), he punishes us. If we are punished by him, we never become **displeased** (অসমতুষ্ট). Rather we feel that it was due for us. I cannot but follow his **praiseworthy** (প্রসংশনীয়) personality.

For his proficiency and **devotion** (ভালোবাসা) in English, interesting and effective teaching capacity, good human **qualities** (গুণাবলী), high personality, good character, etc., he is my favourite teacher. So I like him **most** (অত্যধিক).

Mr Basar is a very proficient and **successful** (সফল) teacher. I think he is one of the best teachers in our country. He has left a permanent **impression** (ছাপ) on my mind. I will always try to follow him in my life.

My Childhood Memories/Some Sweet Recollections of My Childhood

Man often remembers his past memories as they cheer our hearts and make us forget our sorrows. However, I cannot remember everything of my childhood. But still I remember some past days of my childhood. Most of them are sweet and some are sad.

I spent my childhood in my **native** (নিজ) village. At the age of five I was admitted into our village primary school. I went to school with my father. My heart **began to beat fast** (দ্ৰুবত নাগলো) when I was taken to the Headmaster. But his **smiling face** (হাসি মুখ) and **sweet words** (মিফি কথা) removed my fear. Most of the teachers **seemed** (মনে হলো) very good and helpful. However, I went to my classroom and all my classmates received me happily.

During my childhood, I was very **restless** (জিপ্ৰাৰ) and **curious** (উৎসুক). A strong desire to know the unknown always worked in me. Every day in the afternoon I used to play football with my friends. My playground was by the bank of the Brahmaputra. Sometimes, I along with my friends used to jump into the river and swim in it. Sometimes we would catch fish in it. I can also remember clearly picking mangoes from the gardens with other children. Sometimes we would forget to have our midday meals. I also remember my going to the village market with my father twice a week.

Some **bitter** (তিক্ত) experiences of my childhood are also still fresh in my mind. One day I was **attacked** (আকান্ড) with serious fever at six. My parents became **anxious** (উদিগ্ন) and took me to a **specialist** (বিশেষজ্ঞ) doctor. They prayed to Allah for my **immediate** (অবিশান্ধে) **recovery** (আরোগ্য). The death of my grandmother, who was very dear to me, was another sad experience. I still remember the face of my grandmother who entertained me with her **fairy** (পরী) tales which I **took to** (মনে করতাম) be true. Her death was a **great loss** (বিরাট বতি) for me.

All these childhood memories **flash** (ঝলক) into my mind whenever I am alone. I wish I were a child again. But it is not possible because those days are gone and gone forever.

My Daily Life/A Typical Day of mine/My Daily Routine

A student must lead a very **disciplined** (শৃঙ্গেলিড) life. A good student is always **punctual** (সময়নিষ্ঠ). **To maintain** (পরিচালনা করা) discipline and punctuality, a student needs a daily routine. Like many other students, I have a daily routine. I try to follow my daily routine so that I can do my work **smoothly** (মসুনভাবে).

I am an early riser. I get up at 5 O'clock. After waking up I brush my teeth and wash my face. Then I say (পড়ি) my Fajr prayer. After that, I walk for a while (কিছুবনের জন্য) in the cool environment of the morning. I returned home at 6 O'clock and revise my homework. At half past seven, I go to wash room and take my bath. Then, I take my breakfast, put on dress and start for school.

My school starts at half past eight and I always try to reach my school in time. I attend three classes **at a stress** (একটানা) and then get a break. In the class I listen to attentively what my teachers say. As I am a class captain, I am **to do** (করতে হয়) some extra duty too.

During tiffin period, I **chat** (খোশ গল্প করি) with my close friends while taking tiffin and say my Juhar prayer in the school mosque. Then, I attend two more classes.

My school breaks at 2 pm. I leave my school quickly and go home. Then I wash myself and say my Zuhr prayer. After taking my lunch, I like to have **a nap** (মুম). Saying my Asr prayer, I go to playground to play with my friends. I return home before evening.

In the evening, I wash my hand and face, say my Maghrib prayer and sit down to read. I read up to 9 pm. Then, I say my Isha prayer and take my dinner sitting with the other members of my family. At 10:30 pm I go to bed.

During holiday, I visit my relatives. On Friday, I play with my friends in the morning. At noon I say my 'Jumma Prayer' in the local mosque. In the evening, I watch TV.

This daily routine of mine (আমার) helps me a lot to lead a punctual life. Unless I become sick, I stick (লেগে থাকি) to my daily routine.

Prize Giving Ceremony of Our School/Sports Day

The prize giving ceremony of a school is always **interesting** (মজাদার). Students wait **eagerly** (আহু বের সাথে) for this ceremony. It is often **held** (অনুষ্ঠিত হয়) on annual sports day of a school. Prizes are given among the winners as well as the students who have good records and good result. Teachers and staffs are also found to receive presents on this day.

The name of our school is Joypur Sorojine High School. The last prize giving ceremony of our school was very thrilling. It was held in our school campus a few days ago. Our school was well decorated before the day of ceremony. A large **stage** (মঞ্চ) was built at the south corner of our school field. The **chief guest** (প্রধান অতিথি) was the DC of our district. Our teachers, guardians and leading people of our locality attended the ceremony. With the

recitation from the holy Quran, the function started at 10 a.m. Then we sang our **national anthem** (জাতীয় সজ্জীত) together. At first, our Headmaster **delivered** (দেন) his speech **highlighting** (জালোকপাত করে) the annual report of the school. Then the chief guest delivered his **valuable** (মূল্যবান) speech which was full of **moral lessons** (নৈতিক শিৰা) and suggestions.

Most of the sports events were done on the previous day. Some attractive events such as 100 meter race, high and long jump and pillow changing were left for the day of the ceremony. After completing these events, the prize **distribution** (বিতরন) was started. The honourable chief guest delivered a short speech thanking the winners and **consoling** (সাম্ভ্রনা) the others. Then he gave away prizes among the winners. Our sports teacher helped him in this regard. My joys knew no **bounds** (সামা) when I received my prizes from the DC's hand. I was called three times for prizes. The **audience** (দর্শক-শ্রোতা) **clapped** (তালি দিলেন) loudly each time the winners were receiving their prizes.

The prize giving ceremony came to an end at 5 p.m. After that a **cultural** (সাংস্কৃতিক) programme was held for entertainment. The annual prize giving ceremony of my school was really exciting. It is one of the most memorable events in my life.

The Season I like Most/The Spring in Bangladesh

Bangladesh **is called** (বলা হয়) the country of six seasons. Every season **appears** (হাজির হয়/আসে) before us with the beauty and **blessings** (আশীবাদ) of nature. I like all the seasons but spring is my most favourite season. Of all seasons, spring is the most charming and delightful. It is called the queen of all seasons. Moreover, spring has no **terrible** (ভয়জ্জর) look. Many writers and poets **have enriched** (সমৃদ্ধ করেছে) their **writing** (লিখনী) with the influence of spring.

There is **hardly** (খুব কম) anybody who does not love spring. The hot **rays** (রশি) of summer sun are **unbearable** (অসহ). All feel **uncomfortable** (অস্বতিকর) in the hot weather of summer. Heavy **sweat** (ঘাম) comes out from our body. Nobody can work hard. Tanks, ponds, and rivers **dry up** (শুকিয়ে যায়) and people suffer much for this. The sky of the rainy seasons always remains **cloudy** (মেঘলা). It rains all time. Roads become muddy. **Lightings** (বিদ্যুৎ চমক) and **thunderbolt** (বজ্রপাত) **frighten** (ভীত করে) people. Sometimes flood occurs. Poor people cannot go for work and suffer from various problems.

Though autumn is a **lovely** (মনোরম) season, it cannot be compared to spring. Autumn cannot provide with all the facilities that spring can. Late autumn is a sweet season but not sweeter than spring. After autumn comes winter. People suffer from **dense fog** (ঘুন কুয়াশা) and **biting cold** (তীব্ৰ ঠাণ্ডা). Nature looks **gloomy** (বিষন্ন) and **dismal** (নীরস). **Leafless** (পাতাহীন) trees, flowerless garden and sun-less sky make the people cheerless.

Finally spring comes with all its beauties and blessings. Spring is **temperate** (নাতিশীতোষ্ণ). It is neither cool nor hot. New leaves grow in trees. Nature becomes green and fresh. A **gentle** (মৃদ্) breeze **blows** (বয়ে যায়). Birds sing merrily. Gardens have a lot of flowers. The **fragrance** (মৃগন্ধ) of flowers comes and **soothes** (শান্ত করে) us. The sky is clear. The sun is bright. There is life everywhere. The sky at night is full of **innumerous** (অসংখ্য) stars.

In spring morning, walking is highly soothing. People feel comfortable in their workplaces. Peace and happiness **remain** (পাকে) in their minds. My mind dances with joy to see the beauties of nature in spring. I cannot but love spring.

Rainy Season

There are six seasons in Bangladesh. I like all the seasons. But I like rainy season most. Rainy season is my favorite season and **perhaps** (সম্ভবত) it is favorite to all. Rainy season comes to us with many pleasant things- and beautiful scence and sounds.

The rainy season is the second season of the year. It comes after summer. It is **made up** (গঠিত) of Ashar and Sraban. In fact rain **sets in** (শুর ব হয়) our country in the middle of June and **lasts** (স্থায়ী থাকে) up to the middle of September.

People welcome the rainy season heartily. The season brings heavy rainfall. The sky becomes cloudy. Sometimes we do not see the sun for days together. Sometimes it rains **cats and dogs** (মুখলধারে). Canals and tanks are filled with rain water.

The season cools and refreshes all. A journey by boat is very interesting in this season. The roads become **muddy** (কর্দমাক্ত) and **slippery** (পিছিল). The rain washes out dirt. It makes our country **ever green** (চিরসবুজ). It is also a season of fruits. Mango, black-berry, jack fruit, lichies etc. have **buds** (প্রস্ফুটিত হয়) on them.

The rainy season is very useful to us. Bangladesh is mainly an agricultural country. Our agriculture mainly depends on this season. Green leaves grow in trees. The cultivation of our country makes the paddy fields ready. Jute plants grow **rapidly** (万◆).

The rainy season is the most important and useful season in our country. It is the best of all the season in Bangladesh. We **always** (সর্বদা) welcome this season and enjoy its beauty.

Floods in Bangladesh

Flood is one of the most common natural **calamities** (দুর্মোগ) in Bangladesh. In the rainy season, sometimes **heavy** rainfall (ভারি বৃষ্টিপাত) **overflows** (পরাবিত করে) the bank of river and **submerges** (ডুবে যায়) many **low lying** (নিচু ভূমি) area of Bangladesh. This is called flood. Again, water from the upstream may cause flood. It occurs almost every year in Bangladesh. It causes great havors to millions of people.

Though floods **occur** (ঘটে) every year in Bangladesh, sometimes it takes **terrible shape** (ভয়জ্জর রূ প). The recent serious floods occurred in 1985, 1988, 1991, 1996 and 1999. These terrible floods **affected** (বতিগ্রস্থ করেছে) millions of people and **engulfed** (তলিয়ে দিয়েছে) most areas of the country and the **miseries** (দুর্দশা) of the people knew no bounds.

The damages (ৰতি) caused by flood are beyond description (বৰ্ণনাতীত). It destroys crops, houses and many other valuable things. Cattle die because they do not get food. They lose their shed গোৱালঘর) during flood. People suffer very much. Railway lines and roads go under water. Transportation system পেরিবহন ব্যবস্থা) is hampered seriously. The most dangerous things are different kinds of diseases which attack the affected people. Diarrhoea, cholera, typhoid, and dysentery are the main diseases during flood. Sometimes, mass death (গণমৃত্যু) occurs for these diseases.

Flood has one good effect. It makes soil **fertile** (উর্ব্র) by supplying **alluvial** (পাললিক) soil. Crops grow **in plenty** (প্রচ্বর পরিমানে) next year after the flood. Another good side of flood is volunteer services of the students and many **charitable** (পাতব্য) organizations. The members of the organizations collect foods, cloths, medicine and **distribute** (বিতরন করে) them among the affected people.

It is time we took **preventive** (প্রতিরোধমূলক) steps **to reduce** (কমাতে) the loss of flood. More and more **shelters** (আশ্রমস্থাল) for the affected people should be built. The concerned authority should develop better system of **irrigation** (সেচ), transportation and **embankments** (বাঁধ) to **control** (নিয়ন্ত্রণ) flood.

The Rivers of Bangladesh

Bangladesh is called the country of rivers. So many rivers **spread** (ছড়িয়ে আছে) over Bangladesh **like the nets** (জালের মত). The main rivers are the Padma, the Meghna, the Jamuna and the Brahmaputra. Besides these, there are a lot of small rivers throughout the country.

The rivers of Bangladesh are **blessings** (আশীর্বাদ) of nature. They are the **greatest** (সর্বৃহৎ) **source** (উৎস) of wealth. The economy of Bangladesh **is connected** (সংযুক্ত) with her river system. As Bangladesh is an agricultural country, her agricultural **prosperity** (উন্নতি) largely depends on the rivers. These rivers have made her soil **fertile** (উর্বর) by providing **silt** (পলি) during flood. The rivers play a great role in transportation system. Boats, launch, steamers, and ferries carry goods and passengers and keep **contributions** (অবদান) to transportation.

Rivers have great contribution to trade and business. Most of the big cities of our country are on the bank of the rivers. Many important river **ports** (বিশ্বর) have been constructed on the bank of the rivers. Our capital city Dhaka stands on the Burigonga. Many mills and factories are also on the rivers and the **products** (দ্রব্যদি) can easily be transported to various places and markets through (মাধ্যমে) the rivers.

Fishes **abound** (প্রচুর পরিমাণ) in the rivers of Bangladesh. The **fishermen** (জেলেরা) catch fish and sell them in the market. A large **quantity** (পরিমাণ) of fish **is exported** (রুশ্তানি করা হয়) to foreign countries every year. It contributes to earn much **foreign** (বিদেশ) currency.

The rivers have great influence on man. They **inspire** (অনুপ্রানিত করে) our poets, writers and artists. Many writers of Bangladesh have **composed** (লিখেছেন) poems, articles, essays and prose on it. Our mind moves with **unlimited** (সীমাহীন) joy when we see the natural beauties of the sides of the rivers. The boats as well as the different kinds of water vehicles (নৌযান) largely charm us.

Rivers have some negative **aspects** (দিক) too. Sometimes they cause serious floods which damage agricultural crops, wash away houses, cattle and properties. Sometimes, launches sink into the rivers and many passengers die **unfortunately** (দুর্ভাগ্যবশত). **Apart from these** (এতো কিছু সম্বেও), rivers are blessings for us.

The Fruits of Bangladesh

Nature his given us much wealth. Fruits are one of them. Many kinds of fruits are **available** (পাওয়া যায়) in Bangladesh. Among them oranges, mangoes, lichies, jackfruits, guavas, **plums** (আপুনোখারা) etc. are most important.

There are many kinds of summer fruits. Mangoes, jackfruits, the melons, lichies are very common among them. These fruits are very tasty to eat. Their flavour is very sweet. Mango is called the king of all fruits. Jackfruit is a large kind of fruit. It is our national fruit. The rest of them are small in size but very tasty. Pineapple, guava, 'amra' etc. are the fruits of the rainy season. Pineapple grows in plenty in Sylhet and Rangamati. It is a **juicy** (রসালো) fruit with vitamins. The guava and the **amra** (জামড়া) are very healthy fruits.

Orange, olive, wood apple, plum are the fruits of winter. The winter fruits are favourite to the children.

There are some fruits which **taste sour** (স্বানে তিক্ক). Among these, **lemon** (বেবু) is the most popular. It has different **varieties** (বৈচিত্ৰ্য) of which Kagozi is the best. **Tamarind** (তেঁতুৰা), 'Kamranga' and 'Batabi' also taste sour.

Banana and coconut are available throughout the year. The bananas of Rampal and Narsinghdi are famous. People take coconut and banana greatly. They are very helpful for our general health.

Every kind of fruit **contains** (ধারন করে) various necessary vitamins. We can be healthy by eating those fruits. We can **export** (রুতানি) our fruits to foreign countries after meeting the demand of our **countrymen** (দেশবাসী). Then our economy will be **improved** (উন্নত).

The land of our country is very suitable for cultivating different kinds of fruits. And so, we have got various kinds of fruits. They help build up our health. They can also be helpful to build up our national wealth.

A Village Market

A village market is very common and necessary place in a village. It is a place where the villagers come to buy and sell things. It is actually a buying and selling **center** (কেন্দ্র) for the villagers.

Generally, a village market **sits** (বলে) at a place which is easily reachable (নাগালযোগ্য) to the villagers. So, the **junction** (সাযোগ্য) of roads, the sides of a river or a canal, place under a banyan tree or any large tree are suitable for a village market.

There are two kinds of village market. They are daily market and weekly market. Daily market is called Bazar. Some daily markets sit both in the morning and in the evening. Again, some daily markets sit only in the evening. Weekly market is called 'Hat'. It sits once or twice a week.

Most of the village markets have three parts. They are **open** (উনুক্ত) shops, **temporary** (অস্থায়ী) shops and **permanent** (স্থায়ী) shops. In the open shops the **sellers** (বিক্রেতারা) sit **in rows** (সারি করে). Fish, milk, fruits, **betel leaves** (পান), **betel nut** (সুপারি), vegetables etc. are sold there. In the temporary shops oil, rice, salt, **pepper** (মরিচ) etc. are sold. Some **grocers** (মুদি), tailors, doctors, **potters** (কুমার) etc. sit in the permanent shops.

A village market is very important for the villagers. Most of the daily necessaries are found in a village market. It is the **meeting place** (মিলনস্থল) of the villagers. There are some tea-stalls in a village market. The villagers **exchange** (বিনিময় করেন) their views and **opinions** (মতামত) while taking tea. Another **advantage** (সুবিধা) of a village market is that the villagers are economically benefited by it. Moreover, the villagers cannot go **to distant** (দুরের) city market every day to buy or sell their common products. The village market **meets** (পুরণ করে) their daily needs.

There are some **disadvantages** (অসুবিধা) of a village market. It is a **noisy** (কোলাহলময়) and unhealthy place. For **heavy crowd** (প্রচণ্ড ভিড়), some people's pockets might be picked. Sometimes, odour from the market irritates the people. Especially the fish market is really a dirty place. Moreover, high **bargaining** (দর ক্যাক্যি) continues between the sellers and the buyers. Buyers may be **cheated** (প্রতারিত) in this case.

Despite (সম্ভেণ্ড) having some negative **aspects** (দিক), a village market is important for the villagers. It gives a great service to the rural people. It **can be considered** (বিবেচিত হতে পারে) as the **backbone** (মেরবদণ্ড) of the rural economy.

A Village Fair

A village fair is a **colourful** (রজিন) exhibition held in a **particular** (বিশেষ) place of the village. It is generally held in an open space. Sometimes, it is held on the bank of a river or near a **temple** (মন্দির). The occasion may be religious or cultural according to the **tradition** (ঐতিহ্য) of the local people. It may be held on the occasion of **Chaitra Sankranti** (টেব্ৰ সংক্রাম্ভি) or Muhurram or Durga Puja. Nowadays, Baishakhi Mela is being held in many parts of the country.

Men and women of all ages and particularly the children find great delight in visiting the village fair. Various articles are sold in the fair. Of them dolls, fancy goods, sweets and stationary goods are very attractive to the villagers. Clothes of various kinds, ready-made garments, cheap fancy goods, **clay pots** (মাটির পাত্র), **whistles** (বাঁশি), bamboo flutes, toys, dolls, **utensils** (হাতি-পাতিল), cheap sweets, cosmetics etc. have the greatest demand in the fair.

The special attraction of the village fair is its circus party, **travelling** (আমামান) jatra party, nagordolas and magic shows. Nowadays cinema parties also show films to the village people. All these keep them **spell-bound** (মন্ত্রমূপ) till the fair ends.

A village fair is a **means** (মাধ্যম) of recreation, change and social get-together of the village people. It breaks the **monotony** (এক্যেমে) and **boredom** (বিরক্তি) of their life. The government should encourage the fairs as they help development of rural arts and crafts. With all this, a village fair is a great **charm** (আকর্ষণ) to the village people.

Tree Plantation

Trees are the most important **gift** (উপহার) of nature. They are **inseparable** (অবিচ্ছেদ্য) part of our **existence** (অস্তিত্ব). **Since the dawn** (শুরব) of civilization, man has a **close** (ঘনিষ্ঠ) relationship with trees.

Trees help us in many ways. They are our best friends. They play (রাখে) an important role in our life and economy. We get fruits, flowers, fuel (জ্বলানি) and timber (কাঠ) from trees. Trees keep air fresh and improve our environment. They check (দমন করে) soil erosion (বয়) and save us from flood and storm (বড়). They give us oxygen and take away carbon dioxide. They help us to keep the ecological (পরিবেশ দূষণ সংক্রান্ড) balance on our earth. They prevent (প্রতিরোধ করে) natural calamities (প্রাকৃতিক দুর্যোগ) like flood, drought (জনাব্টি), soil erosion (ভূমিবয়), etc. Without trees there will have no rain. They also provide shelter (জাশ্রয়) to birds and animals and add (বাড়ায়) beauty to nature. So, considering (বিবেচনা করে) all these things we should plant trees more and more in a planned way (পরিকল্পিত উপায়ে).

Lands of this country are highly suitable for the **growth** (বৃদ্ধি) and development of trees. Sea beaches, low-lying **unused** (অব্যব্হত) lands, sides of the highways and roads can be brought under the **scheme** (প্রকল্প) of tree plantation. Generally, June and July are the most suitable period for planting trees in our country. There are some trees which can be planted **round the year** (সারা বছরব্যাপী).

The good news is that our people nowadays are more conscious about the importance of trees. The government has also taken a **massive** (বিশাল) programme for tree plantation. This programme should be made popular all over the country. At the same time, we should not **ruin** (ধ্বহন করা) the forests and destroy the trees. If for our necessity, we cut a tree then we must plant at least two trees. Everyone must come forward in this regard so that we can make our country a land of green beauty.

My Visit to a Place of Historical Interest

A historical (ঐতিহাসিক) place means (মানে) a place which bears (বহন করে) the testimony (সাৰ্য) of history. It surely has some important past event (অতীত ঘটনা) worth (যোগ্য) notable (বিখ্যাত) in history. A visit to a historical place is not only interesting but also educative. It is my spontaneous (স্বতঃস্ফুর্ত) habit to visit the historical places of our country whenever I get time and chance because it gives me much pleasure.

Last winter, I visited Bagerhat. The place is famous for the Shat Gombuj Mosque and the Mazar of Khan Jahan Ali. I along with my two friends started our journey on the fixed day (নির্ধারিত দিনে), and reached the destination by eight hours' journey. When we reached there, it was night. So, we spent (কাটালাম) the night at a residential (আবাসিক) hotel in Bagerhat. Next morning we went out to visit the Shat Gombuj Mosque and the Majar of Khan Jahan Ali. It is three miles away (দুরে) from Bagerhat and we reached there by rickshaw.

We were surprised to see the **architectural** (স্থাপত্য) structures of the mosque. It stands on sixty pillars and has seventy seven **exquisitely** (নিখুতভাবে) **curved** (বৰু/বাঁকা) domes. The area of mosque is very large and charming. There is a long **tank** (দিখি) near the mosque named 'Ghoradighi'. The mosque **has been declared** (খোষণা করা হয়েছে) as a

world **heritage** (ঐতিহ্য) site. In fact, this mosque is one of the greatest **tourist** (পর্যটন) attractions of Bangladesh. We came to know that this mosque was used not only as a prayer hall but also as a court of justice. We also felt **ecstasy** (প্রমানন্দ) to see the **unique** (অনন্য) design of the Mazar of Khan Jahan Ali. It stands **on a raised** (উঠানো) ground. The **tomb** (কবর/মাযার) is made of cutting stone. There is a big tank in front of the mazar. There are some crocodiles in this big tank. When the **caretaker** (তত্ত্বাবধায়ক) called them, they came near. It was very interesting. Then we visited many social works of Khan Jahan Ali such as roads, public buildings, etc.

It was a great pleasure for me to be at Bagerhat. It was indeed a rewarding visit. The sweet memory of this visit will remain **ever fresh** (চির সবুজ) in my mind.
